Alarm.com V722W

Install

STEP 1
Enroll the camera to your router and Alarm.com account.

STEP 2
Mount the camera to the desired location with the provided mounting screws. Make sure the camera is installed near a power source.

STEP 3
Power the camera on by plugging the power transformer into the 110V power outlet.

STEP 4
Adjust the view of the camera using your Alarm.com website or app to aim.
