Enroll

STEP 1

- a. On the IQ Panel *swipe down* on the home screen.
- b. Go to **SETTINGS** and then **ADVANCED SETTINGS**.
- c. **Enter** the Installer code.
- d. Go to **INSTALLATION**.
- e. Go to **DEVICES**.
- f. Go to **SECURITY SENSORS**.
- g. **Press** **AUTO LEARN SENSOR**.

STEP 2

- a. **Trip** the sensor by putting the magnet (smaller piece) next to the arrow on the sensor (larger piece) and then take them apart. The panel should now be showing the sensor's information.
- b. **Click** on the auto-populated name and **select** **CUSTOM DESCRIPTION** to add the desired name for the device.
- c. **Press** **ADD NEW**.
