## Enroll

---

### STEP 1

- a. On the IQ Panel **swipe down** on the home screen.
- b. Go to **SETTINGS** and then **ADVANCED SETTINGS**.
- c. **Enter** the Installer code.
- d. Go to **INSTALLATION**.
- e. Go to **DEVICES**.
- f. Go to **SECURITY SENSORS**.
- g. **Press** **AUTO LEARN SENSOR**.

### STEP 2

- a. **Tamper** the Image Sensor by taking off the back plate. The panel should now be showing the sensor's information.
- b. **Click** on the auto-populated name and **select** **CUSTOM DESCRIPTION** to add the desired name for the device.
- c. **Press** **ADD NEW**.
